

There are four goals that I have set for the students in the library. These goals are not based upon the skills and Common Core Literacy Standards that are taught, but are based upon skills that will aid them throughout the rest of their life.

- ❏ *To inspire a love for reading and a desire to be a life-long reader.*
- ❏ *To establish that reading can be for enjoyment and for learning.*
- ❏ *To provide learning experiences that enhances their ability to search for answers in the media center.*
- ❏ *To enhance student's reading skills through learning experiences*
