

Kindergarten

Kindergarten students will begin checking out library books approximately three weeks after the beginning of school. They will check out one book every four days on their scheduled library day. Students that do not return their library book will not be allowed to check out another until the book is returned.

Book bags will be distributed to each kindergarten student. These bags help students keep library books safe and need to be returned with their library book inside. Students that lose their library bag may purchase another bag for 50 cents.
